Mesh Safety Covers

High-Performance Features

All Only Alpha Pool Products Mesh Safety Covers feature the latest in pool cover technology. Our high-quality mesh covers are integrated with reinforced webbing on both the top and bottom of every seam and protected by rub strips. See some of our other standard features below:

- Black thread (triple stitching) cross-tack & box-tack at all perimeter stress points.
- Reinforced webbing top and bottom on every seam and around the perimeter.
- All covers are manufactured with the most modern of equipment including a computerized cutting and shaping system.
- All hardware is prepackaged in individual poly bags. Each bag (or set) includes the brass plug, brass screw, spring buckle and vinyl sleeve.
